PROFESSIONAL EXPERIENCE

Software Engineer

Optum Global Solutions (United Health Group)

09/2019 - Present

Hyderabad

Achievements/Tasks

- Designed and Implemented the Enrollment data Review Process for Global Hub NAM Expatriate Insurance Portal which reduced the enrollment related incident reporting by more than 40%.
- Contributed in Migration of Expatriate Insurance Portal from asp.net web forms to angular and .NET core Web API to improve the performance and also reduce the maintenance cost substantially.
- Migrated SSIS packages from package deployment to project deployment model and created deployment pipelines for SSIS to reduce the manual effort in development and deployment efforts. Designed and improved the existing packages for better performance and logging.
- Developed APIs in .NET Core for Claims, Provider, and Member modules and deployed it for Global Gateway Portal and other applications in NAM which has improved the code re-usability and also reduced the duplicate code base used by various applications by more than 60%.
- Provided Post Production Support for application. Identified trends in reported Issues, provided root cause analysis and solution options.

Analyst

Deloitte Support Services

01/2019 - 09/2019

Hyderabad

Achievements/Tasks

- Contributed in development of Hoteling module for Magnet Concierge portal using Angular, Web API and Azure.
- Implemented Azure key vault for better secrets management in the projects.
- Implemented Azure Redis cache to have reliable fast persistent application caching.
- Involved in Deployments to Azure and utilizing Azure services like App service, Storage, Application Insights, Active Directory.

Systems Engineer

Tata Consultancy Services

10/2015 - 11/2018

Hyderabad

Achievements/Tasks

- Contributed in development of My Data Health portal (for Microsoft) using Angular, Web API, SQL Server, Azure.
- Customized and Extensively used PrimeNG angular components to improve the User Experience and reduce the development time.
- Implemented Azure Data Factory v2 pipelines for CRM Sales Data Processing to be consumed by My Data Health portal
- Involved in Deployments to Azure and utilizing Azure services like App service, Storage, Application Insights, Active Directory.

CERTIFICATIONS

MCSD: App Builder

Microsoft (Certification Number : G371-7518)

Microsoft Specialist: Programming in C#

Microsoft (Certification Number : G039-6533)

CERTIFICATIONS

MCSA: Web Applications

Microsoft (Certification Number : G349-2585)

AWARDS

Sustaining Edge Award

UHCG IT OGS

- For Analysis and Development of Expat Enrollment Review Process and Dental Claims Process Improvements

Live Award

UHCG IT OGS

- For migrating NAM SSIS from Package to Catalog Project deployment Model and leading the team to complete GG Modules timely.

EDUCATION

Master of Science (ML & AI)

Liverpool John Moores University
